(54) ROOF UNIT AND GARRET VENTILATION STRUCTURE

(57)Abstract:

PURPOSE: To install a ridge ventilator around the ridge of a roof unit forming a gable roof, and to ventilate a garret.

CONSTITUTION: In a roof unit 11, in which ridge pieces 16 are mounted to the ridge section of a roof structure 15 forming gable roof surfaces, the two ridge pieces 16 are fixed on both sides of the ridge section of the roof structure 15 at an interval. One batten 17 is applied to one ridge piece 16 side, and the other batten 17 is applied to the other ridge piece 16 side.

LEGAL STATUS

[Date of request for examination] 20.10.1994

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or

application converted registration]

[Date of final disposal for application]

[Patent number] 2636994

[Date of registration] 25.04.1997

[Number of appeal against examiner's
